

Something To Keep Me Going

Chris Knight

All the memories of our good time
Keep crowdin' in my mind
But I'm counting on the bad times
To help me leave you behind

Even though I said it's over
I'm really not that strong
I need something to keep me goin'
When I'm gone

As much as I want to turn around
I gotta keep drivin' on
The road to me, forgetting you
Is hard and it's long

When I remember how much I loved you
I just remember how you done me wrong
It's something to keep my going
When I'm gone

Still got your photograph in my wallet
Don't know why I don't throw it away
I used to take it out and look at you
To get me through the day

Now I realize when I look in your eyes
I never really knew you at all
It's something to keep my going
When I'm gone

As much as I want to turn around
I gotta keep drivin' on
The road to me, forgetting you
Is hard and it's long

When I remember how much I loved you
I just remember how you done me wrong
It's something to keep my going
When I'm gone

When I remember how much I loved you
I just remember how you done me wrong
It's something to keep my going
When I'm gone
