

All Wound Up

Chris LeDoux

Since I was a baby maybe two or three
Ain't nothin' ever really bothered me
Some people rattle at the smallest things
I thought that I could handle anything, but I'm

All wound up
Nothin' I can do
I get all wound up
Just from talkin' to you
I use to believe I was a mule to love
But look at me now
I'm all wound up

I never wondered what it's all about
Never saw a thing I couldn't do without
My feet are use to being on the ground
These days I've wanted to kick 'em around, Cause I'm

All wound up
Nothin' I can do
I get all wound up
Just from talkin' to you
I use to believe I was a mule to love
But look at me now
I'm all wound up

All wound up
All wound up

Fame and fortune I can take or leave
Ain't much about it that I really need
Were still together after all this time
Honey child I'm here to tell you that
I'm still

All wound up
Nothin' I can do
I get all wound up
Just from talkin' to you
I use to believe I was a mule to love
But look at me now
I'm all wound up

Yea look at me now I'm all wound up.
