

Big Love

Chris LeDoux

You need a man to get lost it
With a heart big enough to roam
No more fences for you to look through
With your heart caught in a strangle hold
I've got a love full of wide open spaces

I've got a big love wild and free
Room to grow as big as your dreams
Deep as a river in a raging flood
Endless as the stars above
I got a big love

When two hearts make a stand together
On the solid rock of trust
They could be a million miles from each other
And still be side by side in love
I want to love you like that forever

I've got a big love wild and free
Room to grow as big as your dreams
Deep as a river in a raging flood
Endless as the stars above
I got a big love

You never dreamed you could have all you ever wanted
Darling you can have it with me

I've got a big love wild and free
Room to grow as big as your dreams
Deep as a river in a raging flood
Endless as the stars above
I got a big love, I got a big love
