

## Big Love

Chris LeDoux

You need a man to get lost it  
With a heart big enough to roam  
No more fences for you to look through  
With your heart caught in a strangle hold  
I've got a love full of wide open spaces

I've got a big love wild and free  
Room to grow as big as your dreams  
Deep as a river in a raging flood  
Endless as the stars above  
I got a big love

When two hearts make a stand together  
On the solid rock of trust  
They could be a million miles from each other  
And still be side by side in love  
I want to love you like that forever

I've got a big love wild and free  
Room to grow as big as your dreams  
Deep as a river in a raging flood  
Endless as the stars above  
I got a big love

You never dreamed you could have all you ever wanted  
Darling you can have it with me

I've got a big love wild and free  
Room to grow as big as your dreams  
Deep as a river in a raging flood  
Endless as the stars above  
I got a big love, I got a big love
