

Cowcamp Blues

Chris LeDoux

The moon is shinnin' down through the pines
And it spreads its light across the mountain side
And I wonder what you're doin' tonight
Yes I wonder what you're doin' and I wonder if everythings alri
ght
Well I'm up on this mountain and you're there in town
Sleepin' in your feather bed and I'm layin' on the ground
I never knew that I could feel so lost and all alone
And singin' such a lonesome cowboy song

Well I'm just a cowboy I'm workin' all day long
At night I eat my beef and beans and then I sing this song
Yes I wonder what you're doin' tonight
Yes I wonder what you're doin' and I wonder if everthing's all
right
Well I'm up on this mountain...

Now them calves are bawlin' and I can't get no rest
That cold wind's a blowin' and I'm freezin' half to death
Yes I wonder what you're doin' tonight
Yes I wonder what you're doin' and I wonder if everthing's all
right
Well I'm up on this mountain...

It won't be long now and I'll be comin' down
And I better not find any rednecks hangin' round
Yes I wonder what you're doin' tonight
Yes I wonder what you're doin' and I wonder if everthing's all
right
Well I'm up on this mountain...
