

Even Cowboys Like A Little Rock And Roll

Chris LeDoux

Well now cowboys love the ladies they like beans and sour dough
Good horses and hot black coffee and camp fires burnin' low
You know we love that cowboy music but I'll bet you didn't know
That even cowboys like just a little rock and roll

Even cowboys like a little bit of rock and roll
Yeah we all got some boogie woogie in our soul
There's a little bit of Buddy Holly in every cowboy that I know
And even cowboys like a little bit of rock and roll

Now when you're camped out on the prairie and that ole' moon is
shinin' bright
And you can hear them cattle bawlin' soft and low
soft and low

There's nothin' like a cowboy song to make it all feel just right
But even cowboys like a little bit of rock and roll

Even cowboys like a little bit of rock and roll
Yeah we all got some boogie woogie in our soul

There's a little bit of ole' Chuck Berry in every cowboy that I
know
And even cowboys like a little bit of rock and roll
STEP ON IT!!

Now those old buckaroos are set in their ways and they'll even
tell you so
Say they don't like nothin' but them old time cowboy songs

Yeah but I've seen that green grass growin' underneath that win
ter snow
I'll bet them old cowboys even like a little rock and roll

Even cowboys like a little bit of rock and roll
Yeah we all got some boogie woogie in our soul

There's a little bit of Charlie Daniels in every cowboy that I
know
And even cowboys like a little bit of rock and roll

Yeah there's a little long hair in every single cowboy that I k
now
And even cowboy's like a little bit of rock and roll
