

# Searching For A Rainbow

Chris LeDoux

(Put your hands together and start making some noise  
And let's do the same when we get them on stage  
Ladies and gentleman let's give it up for the wild and wooly saddle boogie band)

I rode in to town today in my mind I said Lord I'd love to stay  
Somethin' in me said boy move on  
Don't know what it is Lord blessed it in my bones  
And I'm searchin' for a rainbow and if the wind ever shows me where to go  
You'll be waitin' at the end and I know  
And I'll say to hell with that pot of gold  
I'll say to hell with that pot of gold

This old mount I'm ridin' is gettin' kinda tired  
But in my heart he knows there's just one desire  
He's gonna take me to the end of the road  
And he'll lay down and die and I'll say God rest his soul  
And I'm searchin' for a rainbow...  
And I'm searchin' for a rainbow...  
And I'm searchin' for a rainbow...  
I'll say to hell with that pot of gold
