

# That's What Loving You Means To Me

Chris LeDoux

Hey I'm a man I'm a guy I'm a dude  
I'm a dose of double trouble if I get attitude  
You can see I'm hard workin' by the sweat on my brow  
If I don't know somethin' about it better bet I'll learn how  
I been tattooed by a few battle scars  
No I ain't somebody somebody can push too far  
You're just a shade over five foot two  
Oh but girl with just a look you get me shaking in my shoes  
You say jump and I'll say how high you say do and I don't ask why  
You get a lock and baby I'll be the key that's what loving you means to me  
You toss the stick and baby I'll fetch it you set the time and girl I'll stretch it  
I'll be your everything from A to Z that's what loving you means to me

Well I could live to be a hundred and I'll never understand  
The mystifying power woman has over man  
I could set my mind to walk across a bed of hot coals  
But the thought of life without you makes my blood run cold  
I remember set my mind to walk across a bed of hot coals  
But the thought of life without you makes my blood run cold  
I remember declaring as a younger man  
That there weren't a woman out there who could fence me in  
But you got me wrapped up like a belt in a buckle  
Down on my knees girl you got me crying uncle  
You say jump and I'll say...

But you got me wrapped up like a belt in a buckle  
Down on my knees girl you got me crying uncle  
You say jump and I'll say...
