

# Too Tough To Die

Chris LeDoux

Now don't you try to tell me  
The West is dead and gone  
That cowboys have faded out  
And just a memory lives on  
There's a few of us left  
And were alive and goin' strong

From the rollin' hills of Texas  
To the wild Montana plains  
We still work on horseback  
Just like the good old days  
Now maybe it ain't quite the way it was  
Once upon a time  
The West might be changing  
But it's still too tough to die

As long as there's a place where the eagle flys free  
Where cattle roam the prairie just as far as you can see  
There'll always be a reason and a need for cowboys like me

From the rollin' hills of Texas  
To the wild Montana plains  
We still work on horseback  
Just like the good old days  
Now maybe it ain't quite the way it was  
Once upon a time  
The West might be changing  
But it's still too tough to die

Oh, the West might be changing  
But it's still too tough to die
