

Beautiful Life

Chris Mann

I thought I was invisible
I never thought that I would fall
But the first time was wonderful,
And the second and third were the worst
And the fourth time I thought I'd never make it out alive
But I know there's still hope
I got one more chance left out in my soul.
And the fifth time I'm gonna find a beautiful life

A beautiful life, a beautiful life.
We all wanna find,
A beautiful life, a beautiful life.
Now all my dreams are broken down
I needed a little faith to remember how
The first time was wonderful
And and the second and third were the worst
And the fourth time I thought I'd never make it out alive
But I know there's still hope
I got one more chance left out in my soul
And the fifth time I'm gonna find a beautiful life.

I'll find a beautiful life, a beautiful life.
We all wanna find,
A beautiful life, a beautiful life.
Always takes so much longer
And it always feels so much harder than I thought that it would
be
Oh its eternity
Yeah
When I stopped and looked inside and then I searched I just might find
that I really have it all
Oh I really have it all
And the first time was wonderful
And the second and third didn't hurt
And the fourth time I know that I can make it out alive
I'll make it out alive
Find a beautiful life, a beautiful life
We all wanna find, a beautiful life , a beautiful life
Find a beautiful life
A beautiful life
We all wanna find a beautiful life, a beautiful life, a beautiful life.
