Falling

Chris Mann

I wanna say it out loud
I don't wanna try and hide it
I wanna let it all out
So that you'll know

What you do to my life
The way you make it better
Don't wanna let it go
Wanna let it go

My darling, I'm falling in love with you
There's something colliding in my heart
Love has got me now
My darling, I'm falling

Every word that you say
Is like a prayer that I'm praying
Every minute of the day
I can feel you with me

Don't feel the weight of the world
'Cause you keep me flying
Don't wanna let it go
Wanna let it go

My darling, I'm falling in love with you
There's something colliding in my heart
Love has got me now
Love has got me now

Love has got me now

My darling, I'm falling in love with you
There's something colliding in my heart
Love has got me now
Love has got me now

My darling, I'm falling
My darling, I'm falling
