

## In Between

Chris Mann

Don't wait up,  
I'll be staying late doing my thing  
Stop worrying

Darling, you know you're some kind of wonderful  
And I don't want to let that get too comfortable.

Cause we're in between  
A one night stand and a wedding ring  
It's just you and me, right here, right now.  
So don't walk away, I love you more each day (each day)

Just relax  
I'm not playing games  
Don't hold back, you don't have to be afraid  
Cause I'm coming over for a little while  
Baby, I don't have to move out if I never move in  
Darling, I'd bring my toothbrush but it just doesn't seem to fit

Cause we're in between  
will you stay the night and marry me  
It's just you and me, right here, right now.  
So don't walk away, I love you more..

So let's take it slow 'cause I wanna know every little thing about you  
cause I'm feeling so good, I wanna show you every little thing about me

Cause we're in between  
A one night stand and a wedding ring  
It's just you and me, right here, right now.  
So don't walk away, I love you more..
