

# All Aboard For America

Chris Norman

Well the captain said, "Look out we're setting sail tonight"  
And the harbour lights were dim on that dark and foggy night  
And I thought I knew what we were doing  
Heading for a place to start anew in  
No turning back no opting out it's now or never

And the captain said, "We're off to far and distant shores"  
And you turned and said to me, "If you want me boy I'm yours"  
Well you took my hand and my heart was beating  
As I thought of all that we were leaving  
No turning back no opting out it's now or never

All aboard for America sail away to the land of the free  
All aboard for America come away you can come with me  
If you want to, so all aboard for America  
La, la, la, li, li, li

Well the food was running low and the water running dry  
And the captain went below and I swear I heard him cry  
"If we don't see land this time tomorrow  
There'll be many die and so much sorrow  
Too late for hope time's running out it's now or never"

Then the first mate's voice rang out and he shouted "Land ahoy!"  
"

And a mighty cheer was heard from every woman, man and boy  
And I saw the place of my salvation  
And I set my face in determination  
No turning back no opting out it's now or never

All aboard for America sail away to the land of the free  
All aboard for America come away you can come with me  
If you want to, so all aboard for America  
La, la, la, li, li, li ....
