

All Out Of Tears

Chris Norman

All out of tears all cried out,
We've come full circle,
And through the years I found out
What love is all about
All out of tears.

Fought like soldiers
On the battlefields of love,
We never could admit,
We'd had enough.

Took no prisoners
Struggled to survive,
Now you and me,
Are the walking wounded.

All out of tears all cried out,
We've come full circle,
And through the years I found out
What love is all about
All out of tears.

And in the end,
Was it worth the trouble that it took,
Think of all the time that we have wasted.

All out of tears all cried out,
We've come full circle,
And through the years I found out
What love is all about
All out of tears.
