

# Alone

Chris Norman

I am not afraid to tell you what I'm feeling deep inside  
Let's be open let's be honest let's let passion rule our life  
So intensive so amusing you're a star in your own light  
And I'm honoured that you want me to walk along your side

No I can't shake this feeling, that I got something special  
And I just can't imagine life without you

As long as you take care of me  
I don't ever want to be alone  
(‘Cos I got so much love to give)  
Oh, don't you lose your faith in me  
I make sure you'll never be alone  
(‘Cos I got so much love to give)  
And I... won't ever be alone  
(Loving you more and more...)  
And I... don't wanna be alone

You kiss me and I tremble, your touch is just too much  
It's not infatuation, my soul has opened up  
As the sun breaks you are sleeping, while I'm staring at your face  
Like your angel I'll protect you, your heart is safe with me

No I can't shake this feeling, that I got something special  
And I just can't imagine life without you

As long as you take care of me  
I don't ever want to be alone  
(‘Cos I got so much love to give)  
Oh, don't you lose your faith in me  
I make sure you'll never be alone  
(‘Cos I got so much love to give)  
And I... won't ever be alone  
(Loving you more and more...)  
And I... don't wanna be alone

I've got so much love to give  
Don't wanna be alone no more...  
As long as you take care of me  
I don't ever want to be alone...

As long as you take care of me  
I don't ever want to be alone  
(‘Cos I got so much love to give)  
Oh, don't you lose your faith in me  
I make sure you'll never be alone  
(‘Cos I got so much love to give)  
And I... won't ever be alone  
(Loving you more and more...)  
And I... don't wanna be alone
