

# Breathe Me In

Chris Norman

I don't believe in miracles  
In make believe or wishing wells  
But lying here beside you  
Well I don't know

I feel your body touching me  
It's virtual reality  
So loosen up now baby  
And let it flow

Breathe me in take your time  
Take it slow make it last all night  
Breathe me in  
Breathe me in make it last  
It's alright don't go too fast  
Hold me close breathe me in

Your love will be the death of me  
I'm drowning in your ecstasy  
And I really want to please you  
All the time

Tonight you'll be a part of me  
A satisfaction guarantee  
We'll come together baby  
You will be mine

Breathe me in take your time  
Take it slow make it last all night  
Breathe me in  
Breathe me in make it last  
It's alright don't go too fast  
Hold me close breathe me in

So many times I've wanted you  
But not a second glance  
Now I've got you here with me  
Baby don't throw away this chance

Breathe me in take your time  
Take it slow make it last all night  
Breathe me in  
Breathe me in make it last  
It's alright don't go too fast  
Hold me close breathe me in  
Breathe me  
Breathe me...
