

Don't Lie To Me

Chris Norman

Baby look in my eyes,
won't you tell me what's wrong
Though you try to disguise it,
the feeling has gone
I want you, need you,
baby it's true
But I'm finding it hard,
believing in you

Don't lie to me baby,
baby just think what you say
Maybe, we'll work it out anyway
Don't go building
a wall you know I can't climb
'Cos we're living in danger
of losing this time
Don't lie to me baby,
don't lie to me

Well you wanted my heart,
then you kept it in chains
Now you're trying to hide it,
but everything's changed
I want you, need you,
to hold me tonight
Do you think there's a chance,
we'll make it alright

Don't lie to me baby,
baby just think what you say
Maybe, we'll work it out anyway
Don't go building
a wall you know I can't climb
'Cos we're living in danger
of losing this time
Don't lie to me baby,
don't lie to me

Baby just tell me what
I should do
'Cos I'm so scared
of losing you
Baby it's more than
my heart can take
Don't lie to me baby,
don't lie to me

Don't go building
a wall you know I can't climb
'Cos we're living in danger
of losing this time

Don't lie to me baby,
baby just think what you say
Maybe, we'll work it out anyway
Don't go building
a wall you know I can't climb

'Cos we're living in danger
of losing this time
Don't lie to me baby,
don't lie to me
