

Hearts Need Company

Chris Norman

I can't stand another lonely night
I can't take it any longer
Win or lose I will end this fight
Love's not growing any stronger
Ohh no

I lie in the dead of night
But I just can't find a reason
Love is cold like a winter sun
And it changes like the seasons
Ohh no

You can't keep running away
Nobody ever made it alone
You can't keep hiding away
Ohh no

Hearts need company
To keep out the cold
Hearts need company
Somebody to hold
Hearts need company
Hearts need company

If only you could see the light
We could still be there girl
Love on an endless flight
But you decided on your own word

But you know
you can't keep running away
Nobody ever made it alone
You can't keep hiding away
Ohh no

Hearts need company
To keep out the cold
Hearts need company
Somebody to hold
Hearts need company
Hearts need company

You know
you can't keep your running away
Nobody ever made it alone
You can't keep hiding away
Ohh no , away , ohh no

Hearts need company
To keep out the cold
Hearts need company
Somebody to hold
Hearts need company
Hearts need company
Hearts need company
To keep out the cold
Hearts need company

Somebody to hold
