

# Hearts On Fire

Chris Norman

It was a quiet night, I was too far from home  
At the end of the street, where the young lovers meet, she was  
standin' alone  
And when I asked her name, I saw the look on her face  
She said you know I been waitin' every night in this place  
And though you've taken your time, well I'm so glad you came  
And I just couldn't hide, the feelin' inside was like a burnin'  
flame

Hearts on fire, locked in love  
Hearts on fire, locked in love  
Long desire, hearts on fire  
Hearts on fire, hearts on fire

And as we walked down the street with her hand in mine  
I said you know what I'm feelin', all my life I've been wastin'  
my time  
She said you've always been here, somewhere safe in my heart  
And you know I've been with you, like we were never apart  
And when I looked in her eyes, I knew I felt the same  
When she started to smile, the feelin' inside was like a burnin'  
' flame

Hearts on fire, locked in love  
Hearts on fire, locked in love  
Long desire, hearts on fire  
Hearts on fire, hearts on fire

Hearts on fire, locked in love  
Hearts on fire, locked in love  
Long desire, hearts on fire  
Hearts on fire, hearts on fire
