

I Will

Chris Norman

We're lying in the afterglow
I feel your heartbeat next to mine
Treasuring every breath you take
I'll love you 'til the end of time

Oh I will, I will, I will
I will baby you know that I will
Love you

I'm sitting in the afternoon
I see the sunlight on your face
Worshipping every move you make
I know I'll never leave this place

Oh I will, I will, I will
I will baby you know that I will
Love you

I'm writing down these words for you
To show exactly how I feel
There's nothing I wouldn't do for you
My love for you I can't conceal

Oh I will, I will, I will
I will baby you know that I will
Oh I will, I will, I will
I will baby you know that I will
Love you
Oh I will, I will, I will
I will baby you know that I will
