

# Into The Night

Chris Norman

I feel your heart beat  
Shadows are creeping down the wall  
The sun is sinking  
Baby together we will fall

Into the night  
Come on and join me for a ride  
Into the night  
Where nobody cares

Let your fantasy meet reality  
Only fantasy really sets you free  
Let your fantasy lead your heart and soul  
Only fantasy makes you lose control

Oh - into the night  
We'll go together side by side  
Into the night yeah

Maybe there's danger  
But baby I don't care at all  
Won't you come closer  
So I can feel you when I fall

Into the night  
Come on and join me for a ride  
Into the night  
Where nobody cares

Let your fantasy meet reality  
Only fantasy really sets you free  
Let your fantasy lead your heart and soul  
Only fantasy makes you lose control

Into the night  
We'll go together side by side  
Into the night yeah  
Into the night  
Come on and join me for a ride  
Into the night  
Where nobody cares

Let your fantasy meet reality  
Only fantasy really sets you free  
Let your fantasy lead your heart and soul  
Only fantasy makes you lose control

Into the night  
We'll go together side by side  
Into the night yeah  
Into the night  
Come on and join me for a ride  
Into the night  
Where nobody cares
