

Keep Your Distance

Chris Norman

I'm in a storm, lookin' for a way to get out
I'm just holdin' on, can anybody hear me shout
Oh, you were always there to save me if I fell
Now there's no rescue party comin' for me

You keep your distance, and I'll keep mine
Don't let's pretend that it's worth a second try
You're free, go your way and I'll go mine
Just write it down to a fool in love

Was it a game, or did you do it for real?
If I could look in your head,
I'd know how you really feel
Oh, we're goin' round in circles,
And findin' there's no end
Well did you want a lover,
Or was it just a friend?

You keep your distance, and I'll keep mine
Don't let's pretend that it's worth a second try
You're free, go your way and I'll go mine
Just write it down to a fool in love

(Can't help)
(No, I can't help it)
(Just keep your distance)

You keep your distance, and I'll keep mine
Don't let's pretend that it's worth a second try
You're free, go your way and I'll go mine
Just write it down to a fool in love

You keep your distance, and I'll keep mine
Don't let's pretend that it's worth a second try
You're free, go your way and I'll go mine
Just write it down to a fool in love
