

Let's do It

Chris Norman

Baby, lay your love on me
Cos you can really set me free
Heartaches and mistakes are not all they're cracked up to be
But your way is my way
Anyway you want it waiting there for you and me
So lets do it

I know baby talk is cheap
What's those secrets that you keep
My place or your place anywhere's alright with me
Oh I like - your face
Anyway you want it rock away the night with me
Yeah lets do it

Talk
C'mon you know the time is right
So wrap your arms around me
Uh huh you know it feels alright
And I think I wanna dance
Time to party

Baby, lay your love on me
Cos you can really set me free
Heartaches and mistakes are not all they're cracked up to be
But your way is my way
Anyway you want it waiting there for you and me
So lets do it
