

Love Is A Burning Flame

Chris Norman

Love is a burning flame
And a burning heart can feel no pain
Can you feel the heat of a love's desire
I look at you and my heart's on fire
Love is a burning flame

And I can't get by everything is you
You're in my every thought everything I do
And I wake the night calling out your name
You fill my very soul you're running through my veins

You're inside of me you are my energy
And when you go you leave me cold

Love is a burning flame
And a burning heart can feel no pain
Can you feel the heat of a love's desire
I look at you and my heart's on fire
Love is a burning flame

And you're in my mind everywhere I go
You're always here with me tearing at my soul
Should I walk on by and never let you know
The emptiness you leave whenever I'm alone

'Cos you're inside of me you are my energy
And when you go you leave me cold

Love is a burning flame
And a burning heart can feel no pain
Can you feel the heat of a love's desire
I look at you and my heart's on fire
Love is a burning flame, burning flame
Love is a burning flame
