

Midnight Lady

Chris Norman

You think love is a game,
love is an ocean
Endless and so deep,
always in motion.

I've got many ways,
to reach tomorrow
Love will always grow,
no pain, no sorrow.

When you take me in your arms,
you can break me with your heart
I feel the magic of your charm,
oh, you're tearing me apart

Ref.:
Midnight lady, love takes time
Midnight lady, it's hard to find
Midnight lady, I call your name
I know you can ease my pain

Midnight lady, just you and me
Midnight lady, eternally
Midnight lady, I can fly in your arms
I'll get high

Magic touched my life,
I'm still dreaming
Anything before has
lost its meaning.

Heaven in your eyes,
my soul is on fire
Oh, my feelings grow,
we can't go higher.

Oh, I just want a girl,
baby, just to call my own
And I just wanna dream,
I don't have to dream alone.

Ref.:
Midnight lady, love takes time
Midnight lady, it's hard to find
Midnight lady, I call your name
I know you can ease my pain

Midnight lady, just you and me
Midnight lady, eternally
Midnight lady, I can fly in your arms
I'll get high
