Midnight Lady

Chris Norman

You think love is a game, love is an ocean Endless and so deep, always in motion. I've got many ways, to reach tomorrow Love will always grow, no pain, no sorrow. When you take me in your arms, you can break me with your heart I feel the magic of your charm, oh, you're tearing me apart Ref.: Midnight lady, love takes time Midnight lady, it's hard to find Midnight lady, I call your name I know you can ease my pain Midnight lady, just you and me Midnight lady, eternally Midnight lady, I can fly in your arms I'll get high Magic touched my life, I'm still dreaming Anything before has lost its meaning. Heaven in your eyes, my soul is on fire Oh, my feelings grow, we can't go higher. Oh, I just want a girl, baby, just to call my own And I just wanna dream, I don't have to dream alone. Ref.: Midnight lady, love takes time Midnight lady, it's hard to find Midnight lady, I call your name I know you can ease my pain Midnight lady, just you and me Midnight lady, eternally Midnight lady, I can fly in your arms I'll get high
