

No One Calls My Name

Chris Norman

I wake up, I know you've gone
'Cos the nights are lonely
And days seem much too long
Since you left
No-one calls my name

Turn on the radio it's your
favourite song
Wonder if you're listening
And I wonder what went wrong
Since you've gone
No-one calls my name

And in your eyes
I could see the fire turning cold
Oh tell me lies
'Cos I just never wanted to be told
It's over

I wish you well I wish you health
I wish so many things
But I keep them to myself
'Cos now you're gone
No-one calls my name

And in your eyes
I could see the fire turning cold
Oh tell me lies
'Cos I just never wanted to be told
It's over

I wish you well I wish you health
I wish so many things
But I keep them to myself
'Cos now you're gone
No-one calls my name
