

# No One Calls My Name

Chris Norman

I wake up, I know you've gone  
'Cos the nights are lonely  
And days seem much too long  
Since you left  
No-one calls my name

Turn on the radio it's your  
favourite song  
Wonder if you're listening  
And I wonder what went wrong  
Since you've gone  
No-one calls my name

And in your eyes  
I could see the fire turning cold  
Oh tell me lies  
'Cos I just never wanted to be told  
It's over

I wish you well I wish you health  
I wish so many things  
But I keep them to myself  
'Cos now you're gone  
No-one calls my name

And in your eyes  
I could see the fire turning cold  
Oh tell me lies  
'Cos I just never wanted to be told  
It's over

I wish you well I wish you health  
I wish so many things  
But I keep them to myself  
'Cos now you're gone  
No-one calls my name
