

## Nothing Stays the Same

Chris Norman

Nothing stays the same 'cos everything must change  
And everybody learns that life is very strange  
Aah, aah and though it breaks my heart  
Nothing stays the same

The sun is out the sky is blue  
I wish this feeling would last forever  
On a day like this I think of you  
And remember all the good times  
Oh, who knows what the future holds  
Before it's gone  
But I wish you back, back where you belong

Nothing stays the same 'cos everything must change  
And everybody learns that life is very strange  
Aah, aah and though it breaks my heart  
Nothing stays the same everything must pass  
And though it isn't fair it's over much too fast  
Aah, aah but still it breaks my heart  
Nothing stays the same, nothing stays the same

The past is gone what can we do  
I'll keep you with me now for all time  
With a heavy heart we'll make it through  
I wish we'd spent more time together  
So we should make each moment last  
Before it's gone  
'cos nothing lasts, nothing lasts for long

Nothing stays the same 'cos everything must change  
And everybody learns that life is very strange  
Aah, aah and though it breaks my heart  
Nothing stays the same everything must pass  
And though it isn't fair it's over much too fast  
Aah, aah but still it breaks my heart  
Nothing stays the same, nothing stays the same
