

# One Way Love Affair

Chris Norman

You're walking down the street  
Not really going' anywhere  
When suddenly you meet  
A one-way love affair  
The way she says hello  
Sends shivers through your heart  
And all at once you know  
You couldn't break apart

And if I had my chance again  
I'd do it just the same  
And if I had some words to say  
I'd say them all again  
Now I think you know  
Just what you started there  
Cos people say that ours  
Was a one-way love affair

You're wakin' in the night  
And reachin' out for someone  
The need to hold her tight  
Is more than you can bear  
You close your eyes again  
Imagine she's beside you  
Too scared to turn around  
And find that she's not there

And when I think of all you said  
It hurts me just the same  
And now I know the sun has gone  
Oh, and left me with the rain

They ask me how I am -  
I tell them I don't care  
I just say that ours  
Was a one-way love affair  
People say that ours  
Was a one-way love affair  
Oh, a one-way love affair.
