Peace in Our Time

Chris Norman

Oh darling
How strong is love supposed to be
Surrounded by fire and magic we long to be free
It's heating, heating up down on the streets of shame
To be strong enough
To fly with our love like a phoenix from the flame,
We've gotta have faith
To work it out
Faith and hope
Without a doubt
Give us strength
To make a start
Put a song in our hearts...

We're never gonna break down the walls
And build a prison with the stone
Cos you and I know what love is worth
We're gonna build a heaven on earth
We're running in the wheels of fortune
Turning water into wine
We're gonna make love the bottom line
We're gonna find peace in our time
Oh, oh ...
Peace in our time

Sweet sweet darling
When there is lightning in the sky
Come out of the storm
And into the warmth of the healing I'll supply
You gotta have faith
And get it fast
Faith and hope
And let it last
Give us strength
To reach the stars
Put a song in our heart...

We're never gonna break down the walls
And build a prison with the stone
Cos you and I know what love is worth
We're gonna build a heaven on earth
Oh, oh ...

And the sign of the dove
Is gonna shine shine shine
On a wing and a prayer
We'll be fine, fine, fine

Keep on keeping on
As long as dreams are true
When cities are dust
It's heaven or bust in the shape of me and you
We're gonna have faith
The road has been long
Now there's hope
To carry us on
We'll have strength

We'll never go wrong
With this song in our hearts ...

Chorus:
We're never gonna break down the walls
And build a prison with the stone
Cos you and I know what love is worth
We're gonna build a heaven on earth ....
