

Run From The Shadows

Chris Norman

You don't want my love tonight
You don't want my heart
I gave to you so freely from the start
You're happy with another now
And safe within his arms
You fall in love so easily
You gave yourself completely
To his charms

You better run from the shadows
Run from the shadows
You better watch out
And run from the shadows of his love
You better run from the shadows
Run from the shadows
'Cos he's gonna make a fool of you
You better watch out
And run from the shadows of his love
I said run from the shadows of his love

Well he can buy you fancy clothes
And spend his money too
But he could never love you like I do
You act like you're so confident
You will never learn
That if you want to play with fire
Well don't you know that someday
You'll get burned

You better run from the shadows
Run from the shadows
You better watch out
And run from the shadows of his love
You better run from the shadows
Run from the shadows
'Cos he's gonna make a fool of you
You better watch out
And run from the shadows of his love
I said run from the shadows of his love
