

# Something About You

Chris Norman

It isn't in the way that you hold me  
It isn't in the way that you kiss me  
But baby there's just something about you

And everytime I look in your eyes  
You know I feel my temperature rise  
'Cos baby there's just something about you

Oh you could take my heart and go  
And if you don't come back, everything is black  
I know, oh, oh.

So you can break my heart if you want to  
Oh living would be no good without you  
'Cos baby there's just something about you

Well sometimes when I'm lying beside you  
There's nothing in the world that I can't do  
Oh baby there's just something about you

Oh, when you do the things you do  
There's a woman in my life  
and baby I'm so glad it's you

Oh, so if you ever feel you don't want me  
Well life could never go on believe me  
'Cos, baby there's just something about you

Another time, another place would you be in my arms  
And if I looked into your face is it true  
There's nobody else like you, baby

It isn't in the way that you hold me  
It isn't in the way that you kiss me  
But baby there's just something about you

Something about you  
Something about you  
Baby there's just something about you
