

Trying To Find My Home

Chris Norman

I've wandered round this one horse town
Trying to find my way back home

Well I had my ups and I've had my downs
Trying to find my way back home

And I don't know why I'm shaking
And my body's all been aching
But my heart is surely breaking now
Trying to find my home

Well I lost my way so long ago
I been there and back again

And a hundred lives who I called friends
Where they've gone to I don't know

And the choices I been making
Are the dreams I have forsaken
And I don't know where they're taking me
Trying to find my home

And I don't know why I'm shaking
And my body's all been aching
But my heart is surely breaking now
Trying to find my home

Well I've wandered round this one horse town
Trying to find my way back home
