

You And I

Chris Norman

You're the air that I breathe
You're the heart on my sleeve
You're my life forever and ever

You're the blood in my veins
You're my shelter when it rains
You're my soul

'Cos when you love someone
Half as much as I love you
Yeah when you need someone
Nothing matters without you

You and I
Baby to love each other quite
so much is frightening
As years go by
Baby the time we shared together
went like lightning
And it's do or die
As long as we stay together
we will go on fighting
Baby you know, you know,
the world can be exciting
Oh, oh, for you and I

You're the sun in my sky
You're the shoulder where I cry
You are mine and it's getting better

You're the comfort that I seek
You're the power if I'm weak
But baby I'm strong

'Cos when you love someone
Half as much as I love you
Yeah when you need someone
Nothing matters without you

You and I
Baby to love each other quite
so much is frightening
As years go by
Baby the time we shared together
went like lightning
And it's do or die
As long as we stay together
we will go on fighting
Baby you know, you know,
the world can be exciting
Oh, oh, for you and I
