

All Summer Long

Chris Rea

I got my wheels
I got my clean shirt
I've got enough to get me where she'll be
Skin is burning
The heart's on fire
Take my own dream
To the sea
All I know is
She will be there
Turn it up
Turn it on
All summer long

Turn it up

Look ahead
There's nothing but blue sky
Kiss the rain
And laugh as it goes by
Learn to smile
While everyone else cries
Sing this song
All summer long
All summer long

Turn it up

I've been waiting
Through the winter
I've been dreaming
Of this day
All I know is
She will be there
Turn it up
Turn it on
Turn it up
Turn it on
All summer long
