

And You My Love

Chris Rea

I do not sleep tonight
I may not ever
The sins of the past have come
See how they sit down together

Outside my window
Outside my door
And I know the reason
What they've all come here for

You my love
My sweet, sweet love
Are what it's all because of

Surrender is easy
I know you do me no harm
But your innocence haunts me
The most fatal of charms

Oh I must have done some wrong
On a dark and distant day
For I know full and well tonight
This is how that I must pay

And you my love
My sweet, sweet love
Are what it's all because of

Oh, you my love
My sweet, sweet love
Are what it's all because of... yeah
