

Baby Come Home

Chris Rea

Baby come home
Can't sleep without you
Baby come home
Oh, you know that I care
I need this feeling
Like I need a hole in the head
If life is without you I would rather be dead
Oh baby come come
Yeah baby come come

Oh the morning light is creeping
Across the cold bedroom floor
I need to hear somebody
Walking gently through my door
Baby, please, baby
Please hear what I say
Oh I'm gonna be a good boy
I won't lose it no more no way
I'm singing, baby, baby please come home
Oh I can't live without you
Baby come home
I gotta have you hear
Baby come home
Baby please come home
