

# Big Wave

Chris Rea

I took a ride past the river  
Find my way out to the sea  
I need some air, I need a cool breeze blowing  
Because the big town sure don't like me.  
I see a big wave coming  
Woah! She's coming for me!  
I want to ride on that big wave  
And let it come down on me

I'm laying back, on the shoreline  
Let my face take a piece of the sky  
I should be there, out on the big blue,  
We're letting too much precious time go sailing by.  
Riding on a big wave  
That's how it should be  
Riding on the big wave  
That's where I wanna be.

Big wave washing away all my troubles  
Big wave wiping out my past  
Dive into her deepest dark water  
Oh, big wave set me free at last.  
Riding on the big wave  
That's where I wanna be.
