

## Blue Street

Chris Rea

Take a walk down Blue Street,  
Take a walk with me  
There are no dreams on Blue Street  
Just what came to me  
Took your daydream to the dealer  
You closed your eyes and kissed his feet  
Was he an angel or the devil?  
Gonna find out now  
On Blue Street  
Blue Street is where you go  
When it's over past and gone  
All alone here on Blue Street  
No need to find out what went wrong  
on the street  
When you realize the fear you feel  
Is coming from the inside of your own soul  
When you find out you can't escape it  
The only thing you can't control  
Hey this is Blue street  
There sure ain't no sunny side  
Drop to the paving stones  
'Cos there's nowhere you can hide  
Yeah this is Blue Street  
Yeah this is Blue Street  
Oh this is Blue Street  
yeah yeah
