Espresso Logic

Chris Rea

If you don't listen what the people say The people gonna have to take their own way You got to give the people what they need And only then will they begin to see

There's a world that we don't know There's a world we never see Espresso

I don't need this trouble, I don't need the grief I don't need to feel this pressure down on me Every day there's something we don't really need Stop, think, walk away and let it be Stop, think, walk away and let it be Espresso

There's a world that we don't know There's a world we never see Espresso
