

If I Keep My Faith In You

Chris Rea

Wild is the night and cold is the day
But if I keep my faith in you
I take whatever comes my way
~cos nothing here on earth can hurt me
Something tells me I'll get through
If I keep my faith in you
If I keep my faith in you.

Cold of the shadows
That move around my fear
But they won't hurt me no way
If I believe that you are near
And I will go on.
Each prayer that I say
Tells me it's true
And I will never give up no I'll never give in.
If I keep my faith
If I keep my faith in you.

I say a prayer for the scared and the lonely
I say a prayer for the peace we once knew
Our leaders turn into deep and dark shadows
But I see you shining through
Gonna keep my faith in you.
