

## Shadows of the Big Man

Chris Rea

Oh you've been so long  
In the shadows of the big man  
How long can you take it  
How far can you go  
Don't you know how strong  
In the shadows of the big man  
While he smiles in the sunlight  
You can die in the cold

Spend your life, In the shadows of the big man  
Sell your wife and children, if it made him smile  
How long can you take it, or do you really need it!  
Oh standing in the shadows, the shadows of the big man  
And you'd love all the world to see  
How you break your chains and set yourself free  
And all you got to do is walk away  
Walk away from the shadows of the big man
