

# Steam Train Blues

Chris Rea

Steam train goes so fast  
Goes so far away  
I hear that engine sing  
Listen to what it say  
Gonna get me on that track  
Get on board some day

Hear that whistle blow  
She cry out in the night  
See the flame light a smokestack  
Such a beautiful sight

She tell me she going somewhere  
And everything going to be alright  
Steam train blues

She's in the distance now  
But I still hear her piston roar  
She's in the distance now  
But I still hear her piston roar  
Ain't coming back no more
