

The Days I Spent With You (Song For Bella)

Chris Rea

Each star that shines
In the sky tonight
Is a memory of you.
Each one a smile, that turned
My grey to blue.
When I recall
The days I spent with you.

The life goes on
The way this life is going through,
Mmmmmm
But I will always have
The days I spent with you

And I guess that you, will never know
What you have meant, to me
The highest high, the deepest deep
I ever knew.
And it hurt so bad
And it always will, it's true.
But I will always have
The days I spent with you.

Yes it hurt so bad
And it always will
It's true
But I will always have
The days I spent with you.
