

# Think Like a Woman

Chris Rea

I showed my love a river  
And she took me to the sea  
I showed my love my rusting chains  
She set me free  
I screamed out all the hate I had  
She turned and flew around  
I put down my wish to beat up  
She came back to stay

She said, if you wanna be strong  
And big like a mountain  
There's something you gotta know  
There's a way you gotta be  
You make a big mistake  
If you think all it takes to win me over  
Set your self free  
See like a woman see

I showed my love a mountain  
And she took me to the sky  
I showed my love a rain cloud  
There were tears in her eyes  
I opened up a long lost door  
She smiled and let me in  
She showed me how to never lose it  
Is never try to win

She said, if you wanna be strong  
And big like a mountain  
There's something you gotta know  
There's a way you gotta be  
You make a big mistake  
If you think all it takes to win me over  
Set your self free  
See like a woman see
