

White Man Coming

Chris Rea

White man coming, steal our freedom,
Take us to lands far away
He bring pain
And he bring fear now
Misery 'til your dying day

White man coming

Well they load up, by the water
Whip me hard
And chain me down
Oh ... hell now, for your lifetime sure is
where we are bound

Oh, white man coming

Now you know your life is over
Its become just a hell in chains
Dignity is lying bleeding
Until nothing else remains

White man coming

Cry for your sister, cry to ...
cry for your mother, cry for the one you love
See you running, see me running too
White man coming, for me and you

White man coming
