

Yes I Do

Chris Rea

In the morning she brings music
Takes the dark clouds from my eyes
Gives me something to hang on to
When the cold wind fills the skies
And you ask me do I love her
Yes I do!

You tell me she could leave me
This love could make me cry
All I know is I want it
And I feel it deep inside
So just ask me do I love her
Yes I do!

Tomorrow is tomorrow
I just know about today

In this great big world
Would it be too much to see
Little joy come my way
So just ask me do I love her
Yes I do!
