

You Can Go Your Own Way

Chris Rea

You can go your own way
You can go your own way
It doesn't matter what the others say
Cause you can go your own way

You can go your own way
You got a ring on your finger
A chain around your heart and soul
Searching for an answer
Looking for your own control
Walk away from the leader
Walk away from the books
Walk away from the TV
Take a long hard look
You can go your own way

You can go your own way
You can go your own way
You can go your own way
You can go your own way

You can go your own way
You can go your own way
It doesn't matter what the others say
Cause you can go your own way

You can go your own way
