

# I See The Moon

Chris Rice

Can you see the moon tonight  
Sugar-white perfection  
Radiant beams of purest light  
Our hearts' connection  
Carries me back to a lullaby  
The sweetest song in my memory  
Of Mama's voice on moonlit nights  
To hush her babies, singin'

I see the moon, the moon sees me  
The moon sees the one that I want to see  
God bless the moon, and God bless me  
And God bless the one I'm longing to see

Did you ever notice the man in the moon  
He's the master of reflection  
Somehow he knows and imitates  
My heart's expressions  
Some nights he's melting in clouds of tears  
Or shining my smile like the bright sun  
But look, tonight the moon looks like  
He's missing someone

I see the moon, the moon sees me  
The moon sees the one that I want to see  
God bless the moon, and God bless me  
And God bless the one I'm longing to see
